四、克漏字測驗【請依照段落上下文意，選出最適當的答案】

While some places remind you of the past, others make you think of the future. However, traveling in this city is like walking through time. At one moment, you can be visiting 51 Hindu and Chinese temples, but after walking only a few blocks, you are surrounded by skyscrapers. This could only happen in one place. You are in Singapore, a city 52 East meets West and the past and future collide.

Singapore is the smallest country in Southeast Asia. It is also one of the world's last remaining city-states. For years, the British, Dutch and Portuguese fought for this valuable land. After becoming independent, Singapore quickly developed into a modern city that 53 the best of Eastern and Western cultures.

But most of all, Singapore is famous for being the cleanest city on the planet. It has some of the strictest laws against 54 and pollution. In 1963, Prime Minister Lee Kuan Yew started a tree planting movement that has continued to this day. This is why Singapore is known 55 "The Garden City." And this is not the island's only nickname. Its Malaysian name, Singapura, means "Lion City." Today, the lion statue has become the symbol of the city.

- 【2】51. ① extinct                      ② ancient                      ③ defective                      ④ advanced
- 【4】52. ① how                              ② what                              ③ which                              ④ where
- 【1】53. ① combines                      ② competes                      ③ confuses                      ④ consumes
- 【3】54. ① cycling                              ② shoplifting                      ③ littering                              ④ skydiving
- 【3】55. ① for                                      ② to                                      ③ as                                      ④ by

五、閱讀測驗【請在下列各題中選出最適當的答案】

Joseph hated school. Although he worked hard, his assignments came back covered in red marks highlighting spelling mistakes, letters written wrong, and incorrect spacing between words. He understood the subjects but struggled with reading and writing. His grades suffered, and his classmates called him stupid. Luckily for Joseph, when one teacher heard him describe how words seemed to dance on the page, she recommended that he be tested for dyslexia.

The word "dyslexia" comes from Greek and means "difficulty with words." This disability affects up to ten percent of people. Scientists have suggested a range of causes for it, including **hereditary** reasons. In other words, the disorder may be passed from parents to a child before it is born. Dyslexics often have great difficulty associating the sounds of letters with how they are written on the page—the most basic stage of learning to read. Although there's no cure, the good news, for children like Joseph, is that proper support can help. Through multi-sensory teaching, which adds visual and tactile aids to learning reading and writing skills, students can overcome their problems and even excel in other areas.

Dyslexia doesn't indicate low intellect, and many successful figures are known to have struggled with it at school. Just look at what famous inventor Thomas Edison achieved despite his difficulties. He didn't learn to read until he was seven and was kicked out of school at the age of twelve because his teachers didn't understand his condition. It just goes to show that with hard work and the right support, dyslexics can go on to achieve anything.

- 【1】56. What is this article mainly about?
  - ① A disorder.
  - ② A new cure.
  - ③ An inventor.
  - ④ A Greek word.
- 【2】57. According to the article, what do people suffering from dyslexia have difficulty doing?
  - ① Dancing.
  - ② Reading.
  - ③ Concentrating.
  - ④ Communicating.
- 【3】58. Which of the following is closest in meaning to the word **hereditary**?
  - ① legal
  - ② ethnic
  - ③ genetic
  - ④ unknown
- 【1】59. Where would this article most likely be found?
  - ① A medical journal.
  - ② A history textbook.
  - ③ A travel guidebook.
  - ④ A fashion magazine.
- 【4】60. About dyslexia, which of the following is **NOT** true?
  - ① There is no cure for dyslexia.
  - ② About 10 percent of people suffer from dyslexia.
  - ③ Proper teaching aids can help students with dyslexia.
  - ④ People's intelligence will decrease because of dyslexia.
