The famous British detective Sherlock Holmes was a fictional character, but to the famous 41 William Gillette, Holmes was very real. Gillette portrayed Holmes on stage more than 1,300 times. Gradually and slowly he began to 42 many of the detective's thoughts and habits.

In 1931, Gillette designed an unusual castle which reflects his 43 with Sheclock Holmes. It is filled with wooden locks operated by hidden springs. There is an elaborate system of mirrors that allows a person to see around the room without being spotted when standing in the right position. Also, there is in the study of the castle a secret panel which may help Gillette 44 any visitors he doesn't want to meet.

In the castle, Gillette also puts things 45 as how Holmes did. A violin, like the one the detective played, is left out in a rocking chair. An old newspaper lies open on the rug to give visitors the feeling that Holmes and his partner Dr. Watson have just left the room to go out on a big case.

③ in special order ④ in similar arrangement

四、閱讀測驗【請依照段落上下文意，選出最適當的答案】

It's only about thirty-six centimeters tall, but to fans throughout the world, it represents the highest achievement in football. Every four years, teams from all over the globe contend to take home the FIFA World Cup trophy. Yet, today nobody can take it home because the 18-carat gold trophy is kept under lock by FIFA, the international football association. The champion teams receive only a replica, in order to protect the valuable prize from thieves, who have stolen the trophy twice in its nearly 90-year history.

The original trophy was made by a French sculptor and was called "Jules Rimet Cup" in honor of the founder of the World Cup tournament. During World War II, it was kept in a shoe box hidden under the bed of Dr. Ottorino Barassi, the Italian vice-president of FIFA, to prevent it from falling into the hands of the Nazi army.

In 1966, the trophy was stolen during a public showing prior to the tournament in England. Luckily, it was found a short time later in a trash container by a dog. Four years later, Brazil earned permanent possession of the original trophy by winning its third World Cup title. Unfortunately, the trophy was stolen a second time in 1983 and never came back, so Brazil had to make a duplicate trophy as replacement.

After Brazil's football association won the honor and right to keep the first World Cup trophy, a new one, designed by an Italian artist, was introduced in 1974. This trophy cannot be won outright but remains at the hands of FIFA, which watches it closely. Today, World Cup winners are awarded a replica that is gold-plated, rather than solid gold like the real one.

This new trophy weighs a little over six kilograms. Its base contains two layers of a stone called malachite, and has room for seventeen small plaques bearing the names of the winning teams – enough space to honor the champions up to the year 2038. After that, another new trophy will have to be made.

- 【2】46. Why can nobody take home the real World Cup trophy today?
① Because the trophy will be damaged if too many people touch it.
② Because it may get stolen more easily if the winning team takes it home.
③ Because only a three-time FIFA World Cup champion can do so.
④ Because FIFA wants to show it to the public for more income.
- 【4】47. Who is Jules Rimet?
① The French sculptor of the first FIFA World Cup trophy.
② The Italian vice-president of FIFA during World War II.
③ The Brazilian team captain in the 1970 FIFA World Cup.
④ The person who started the FIFA World Cup tournament.
- 【4】48. Which of the following is true about the first original World Cup trophy?
① It was designed by an Italian designer.
② It was stolen only once but retrieved soon.
③ The Nazi army once had it during World War II.
④ Brazil was allowed to keep it forever but had it stolen later.
- 【3】49. Which of the following is true about the second original World Cup trophy?
① It was stolen once in 1983 but never found again.
② World Cup champions can only take home a gold plate as replacement for the trophy.
③ FIFA started using it in 1974 and no winning team can take it home.
④ Brazil had to pay for this second trophy for having lost the first one.
- 【3】50. Why will a new World Cup trophy need to be made after 2038?
① Because FIFA and fans worldwide anticipate to see a new design of the trophy.
② Because World Cup players have been complaining that the current trophy is too heavy.
③ Because there is limited space on the current trophy for the names of champion teams.
④ Because the stone material of the current trophy is gradually worn out by air and humidity.
